What you'll get

Solve Real Problems
You'll work on live projects that make a real impact on India.

Learn From the Best
Get mentored by the people behind one of India's OG start-ups.

Own Your Journey
We give you the canvas, you bring the vision.

A Culture that Excites & Enables
Feel inspired while also being cared for.

Quite possibly, the best thing about leaping into our world of maximization is that every leap counts - no matter where you come from or what your journey looks like. We've built a workplace where diversity is celebrated and inclusion is non-negotiable.

Your leap is welcomed, valued, and championed here at Flipkart.

About the Leap

This is an opportunity to join Flipkart's **Data Engineering team** as a **Data Engineer**. You will be responsible for designing and implementing scalable data products that support the diverse data processing, science, and analytics needs across the organization. Your work will directly enable data-driven decision-making throughout Flipkart's business, analytics, and operations, impacting the core of India's leading e-commerce platform.

You'll be responsible for

- Creating robust and scalable data applications to process terabytes of data in real-time.
- Working closely with data scientists, product managers, and data platform teams to understand functional needs.
- Utilizing the underlying technology stack to build efficient data solutions.
- Building products and applications that empower informed choices across various business functions.

These things will set you up for success

Exceptional Problem-Solving & Analytical Skills, *strong ability to dissect complex problems and derive effective data solutions.*

Robust Technical Foundation, *Deep understanding of Computer Science fundamentals, including programming, distributed systems, networks, databases, and system internals.*

Excellent Communication *Strong written and verbal communication skills for effective collaboration with diverse teams.*

Ability to Multitask *Being capable of managing multiple requirements and projects concurrently.*

Compensation

*The stipend for internship is **1 Lac***

*The CTC for the full time-role is **32.58 LPA***
(This includes components such as the base pay, variable pay, ESOPs, and other benefits. More details will be shared during the pre-placement talk)

Hiring Process

Screening
Your profile will be evaluated for technical & functional capabilities, relevant experience, and fitment for the role.

Online Assessment
Assessment can be in the form of a test (tech/non-tech), group discussion case study, problem-solving approach or other relevant methods to assess your technical/functional skills

Interviews
Typically 2–3 interview rounds in which we assess your engineering/functional skills, domain expertise, and alignment with future fit and learning interest.

Offer Roll-out/LOI
Final selects will receive a letter of intent from Flipkart, and subsequently the offer letter.

Every Flipster is a Maximiser - Curious, Audacious, Entrepreneurial, Purpose-Driven, Excited By Big Challenges, A Team Player and Inclusive. If this is who you are, then Flipkart is the place where you can thrive.
